

27" ROLLER LAMINATOR

The Professional Series 27STA Roll Laminator is one of the most popular laminators ever produced. This dependable workhorse has been delivering outstanding results for years. The digital control panel features a large, easy to use display. Adjustable speed, heat and tension controls give the user the flexibility to handle many types of projects. Built in footage counter displays film used. The 1" core machine works great with Dry-Lam School-Lam film or any film up to 3 mil thick. Accommodates roll laminating film up to 27" wide.

Made in USA
