

## Advanced Microfiber Cleaning Cloths

Cleanstar cloths are made up of super fine, high density, lint free fibers. These advanced micro-fibers lift dirt, fingerprints, water and oil from delicate surfaces without scratching, streaking or smearing. Cleanstar cloths contain only the highest quality materials that will outperform other microfiber products. The advanced microfiber cloth is washable and can be reused thousands of times.

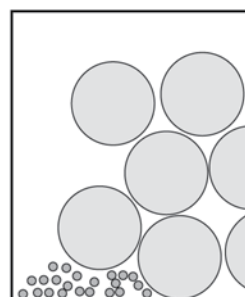

### Why Cleanstar Performs Better...

Cleanstar's wedge-shaped fibers actually get under dust particles, lifting them and trapping them within the cloth

### Microscopic view of cloth fibers

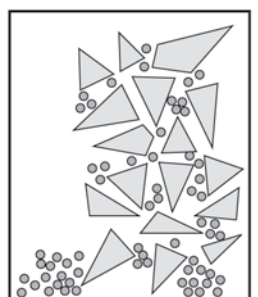

Cleanstars sharp fiber edges trap dust particles without scratching delicate surfaces. Standard cloth fibers roll over and drag the dust causing scratching.

*The Safe and Easy Way to Clean!*

### ***50/50 Original Cloth***

The cloth that started it all! The 50/50 blend of polyester and nylon make this cloth more moisture absorbent than other microfiber cloths. It's the best cloth for cleaning eyewear and lenses, it leaves them spotless and doesn't scratch, streak or smear. Two sizes to choose from.

### ***Supreme Cloth***

The ultra soft suede feel of the Supreme makes it one of our most popular cloths. It cleans all surfaces, but is preferred for cleaning fingerprints and dust from CD's and DVD's.

### ***18% Gray Cloth for Photography***

Specially made for the photographic industry, this convenient cloth is the exact color of an 18% gray card. This dual purpose cloth can be used both as a cleaning cloth and an 18% gray card.

### ***Logo Cloths***

You can have your logo printed on our most popular cloths. Just send in your camera-ready artwork and an order for 240 cloths and we will print your logo or sales message in the corner. Printed area will not affect the performance of the cloth.

### ***Suregrip Cloth***

Get a firm grip on cleaning with the Suregrip microfiber cloth. Special grip dots on the back of the cloth keep it from slipping in your hand during use. Safely cleans eyeglasses, lenses, and monitors without scratching.

### ***Large All Purpose Cleaning Cloth - "Big Blue"***

The Cleanstar all purpose detail cloth is made of advanced micro-fibers. The 15 7/8" x 15 7/8" heavy weight microfiber towel has a very tight weave that lifts and traps dust and dirt away from the surface. Use it to clean any surface without scratching. The soft microfiber towel will handle any cleaning job.
