

OHP Transparency Film

Dry-Lam Transparency Film for Plain Paper Copiers

Produces a crisp black image on a clear background. Presentation visuals are easily made with your plain paper copier. Just insert the transparency film into your copier instead of paper. The copier will place a sharp black image on the clear transparency film for your overhead projector presentation.

8 1/2' x 11" - 100 sheets per box - 4 mil thick - TF901

Dry-Lam Ink Jet Transparency Film

The ideal material for creating colorful presentations. A special coating on the print side ensures quick drying time and less "bleeding". Works with virtually any color or monochrome inkjet printer.

8 1/2" x 11" - 50 sheets per box - 4 mil thick - TF707
